

Our Dear Co-workers,

We have something wonderful to share with you that we received the day before Christmas. It is a report that our newest missionary team sent to us from the Baungon region of our work.

It is translated pretty much directly as they said it, and you will notice that they refer to us as 'fellow team-members' which delights us as this is what we look upon ourselves as – just a member of the big team that God is using in His work in Mindanao.

Hope this report encourages you and gives you many things to pray about as we move into 2022!
